Arlington, AZ 85008

To Whom it May Concern:

This operation raises layer hens and may generate routine air emissions of ammonia in excess of the reportable quantity of 100 pounds per 24 hours. A rough estimate of those emissions is approximately 125 lbs per 24 hours, per site but this estimate could be substantially above or below the actual emission rate, which is being developed in cooperation with the U.S. Environmental Protection Agency. When that emission rate has been determined by this study, we will notify you of any reportable release pursuant to CERCLA section 103 or EPCRA section 304. In the interim, further information can be obtained by contacting:

Hickman's Egg Ranch
Diane Hernandez, Compliance
6515 S. Jackrabbit Trail
Buckeye, AZ 85326
Phone 623-872-1120

Specific site or operational information can be obtained by contacting:
Billy Hickman
6515 S. Jackrabbit Trail
Buckeye, AZ 85326
Phone 623-872-1120

Respondent shall provide to EPA, at the address in paragraph a copy of any written notice given pursuant to this subparagraph

Sincerely,

Glenn Hickman, *President*
